DISCOVER SPORT

WHAT IS THE DISCOVER SPORT SUMMER SCHOOL?

At this exciting summer school you will get taste of what it is like to work with professional athletes during sport and exercise workshops. You'll gain an insight into sports therapy, how sporting injuries are treated and how to rehabilitate athletes, as well as learning the subtle tips and tricks coaches use to get the most out of their players. All workshops and activities will be delivered in state-of-the art university facilities which cater for both professional athletes and students alike.

The summer school is non-residential and will take place on the 1st and 2nd July 2019, each day running from 09:30 to 16:00. The cost of travelling to and from the university will be provided for the student attending and one accompanying adult when required. We recommend travelling to Worcester Foregate Street Train Station where university ambassadors will greet you and escort you to where you need to be. If you plan on travelling by car, we will reimburse petrol costs retrospectively.

The maximum capacity for the summer school is 40 places so apply early to avoid disappointment!

WHAT'S THE CATCH?

There isn't one! As long as you have been identified as an Aimhigher NCOP learner and have an interest in Sport, meals, activities and transport costs are all covered.

HOW DO I GET INVOLVED?

- Talk to your parents/guardians as they will need to consent to you going and give us some information about their education and work background.
- Fill in an application form and hand it back to your school/college by 17th May.
- Wait until June to find out if you've been successful!
