

ART IN ISOLATION COMPETITION

THE COMPETITION AIMS TO:

For the student

- Introduce them to creative opportunities that will build their confidence
- Help to develop their personal aspirations and an awareness of opportunities
- Make connections with their artwork and their own lived experience
- Showcase their work – to add to their University applications or their future CV

Benefits to others

- Help to break down barriers to further and higher education with regard to both themselves and their families
- Further develop already existing partnerships between universities and school, colleges and sixth forms, as well as with students and young people of the locality and their families
- Encourage lifelong relationships between pupils, students and cultural education in the region

If we receive over 500 entries across the region, we will give a £200 Amazon voucher to a randomly selected UniConnect school that has entered to spend on art equipment.
